STARTER HOME PURCHASE SCHEME

The homes at Golding Green are being made available under The Starter Home Purchase Scheme (formerly the Local Authority Affordable Purchase Scheme), delivered in partnership with The Land Development Agency (LDA) and Fingal County Council (FCC) and built by Lydon.

The Starter Home Purchase Scheme is designed to support buyers who are ready to begin their journey to home ownership but need help bridging the gap between their mortgage, savings and the full price of a newly built home. Applicants who are eligible for the Fresh Start Principle may also be eligible for the scheme.

Under the Starter Home Purchase Scheme, homes are sold at a reduced price below open market value, with the exact price calculated by the local authority based on your income and mortgage capacity. The local authority contributes the difference between the market value and what you pay, retaining this contribution as an equity share in your home.

Each property has a Minimum Sale Price, already set below market value, and you must be able to show you can meet this amount through a combination of mortgage, savings, and (if eligible) the Help to Buy scheme. If your income and borrowing capacity are higher, the purchase price will reflect that. Over time, you can choose to redeem or "buy out" the local authority's equity share in part or in full, although there is no obligation to do so. Certain events, such as selling your home, will trigger repayment of the equity share, as set out in the Affordable Dwelling Purchase Agreement, which should be reviewed carefully with your solicitor.
